12th – 20th August 2017

national science week 2017

National Science Week Events in George Town

Insects & Food & You
1pm
Special guest!

Graham Fairless Centre
Wednesday 16th August

Shasta Henry talking about insects as future food. A presentation not to miss!

Renewable Energy Presentation
12pm

Graham Fairless Centre
Wednesday 16th August

Come and learn how you can save money by working more efficiently to generate energy on site and transition to a cleaner and more sustainable future with Mark Barnett from NEST Energy

Engineering and Construction Challenge
1pm – 3pm

Graham Fairless Centre
Wednesday 16th August

Are you up for the challenge to build the tallest tower that can support 1KG at its summit using only 15 straws and 1 meter of sticky tape?

Bring your family, friends, entre a team. Entries can be made on the day at the expo and submitted by individual or groups of two or three. Towers can be constructed on site at the Expo between 1 and 3pm. Judging will take place at 3pm. *Prizes and Certificates!*

Coffee and chat with
Dr. James @ 2pm

Graham Fairless Centre
Wednesday 16th August

Do you have school age children? Then this is for you!

James is one of UTAS's fisheries and aquaculture scientists but he failed high school! Come and chat with James, listen to how he looked ahead to something great with the help of his mum.
